

Client: Pinewood Studios

Location: Iver Heath Buckinghamshire

Project Summary: Asbestos

Contract Duration: Varied

Contract Value: £100,000 ongoing

CASE STUDY

Projects :

As a preferred contractor we have carried out numerous projects for Pinewood studios.

These include removal, repairs, environmental cleaning, encapsulation and reinstatement of non asbestos materials.

The Challenges :

Working in a live studio presents numerous challenges, all of which can be overcome by careful planning, working closely with the client and a positive attitude to their requirements.

This could involve unsocial working hours, adaptation of work areas, confined space work or varying the size of the workforce.
