

Case Study

Client: Greenwich Foundation

Location: Painted Hall

Project Summary: Asbestos Removal

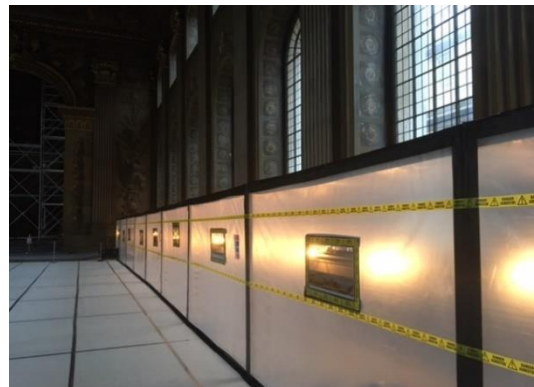

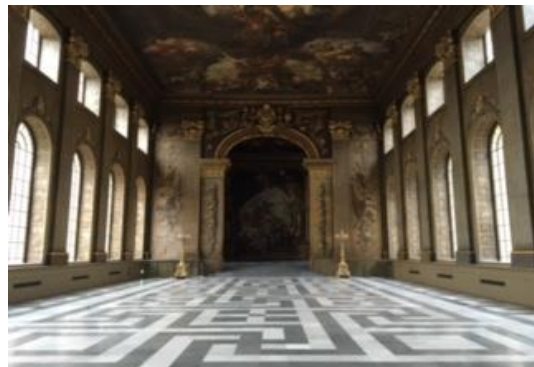

Contract Duration: 8 Weeks

Contract Value: £180,000

Projects Brief:

Pier Contractors Ltd undertook the removal of asbestos insulation from the heating ventilation ducts running down each side of the painted hall and removal of pipe insulation from all pipe services within the kitchen/ pantry and plant rooms. Our construction division also completed the soft strip demolition/enabling works prior two the main contract.

The Challenges:

The main challenge for Pier Contractors Ltd was to insure that no damage was caused to the building fabric all enclosures was erected using a free standing timber frame using specialist designed brackets.

The Old Royal Naval College is the architectural centrepiece of Maritime Greenwich and is a World Heritage Site, Pier Contractors worked closely with English Heritage throughout this project.
